Startup projects

implemented by teaching staff and students are not financed, are carried out at the expense of the teaching staff's own funds. We can include projects developed on a voluntary basis, which have been successfully carried out for several years in the collaboration of undergraduates, students and teaching staff:

International competition "Lesson Presentation"

Workshop on multimedia in education

International student competition of local history problems for junior schoolchildren and

republican competition of local history problems for junior schoolchildren

Regional competition of projects for junior schoolchildren

International essay competition "My profession is a teacher"

international competition pedagogical mastery

International "Pedagogical Lounge"

These startup projects can be commercialized. But at the moment they are integrated into the work programs of various disciplines and are aimed at involving students and undergraduates in initiating business projects in education.

Availability of educational laboratories at the department

"ClassHyflex»

In November 2023, within the framework of the scientific project AP14871883 “Ensuring the professional success of the future teacher throughhyflex(Hyflex) technology”, financed by the SC Ministry of Education and Science of the Republic of Kazakhstan, inAbaiUniversity held the opening of the educational laboratory

“ClassHyflex”<https://www.kaznpu.kz/ru/31750/news/>Her work is aimed at harmoniously organizing the process of blended learning for students.
